One suggested change. I'm not sure we want to imply that the review is metro-wide.

Brian - the wording in Salih's reply is that which has been used in standard replies regarding the F6 corridor. This matter is about the Campbell St corridor but the issue is the same as with the F6 - finalisation of the concept for the M4 to Ports motorway and consequent certainty with regard to corridor lands we wish to maintain.

Salih - it might be worth holding off for a couple of days until Brian has been able to digest this.
