

①

I am writing to you in response to a leaflet being circulated by the Marrickville Transport Action Group (MTAG) claiming that "homes, churches and schools along Edgeware Road, Liberty Street, Kingston Road and more could be bulldozed" to make way for a major, new road project.

**This claim is simply untrue and dishonest.**

The Lemna Labor Government has no plans to construct a major road in the Johnstons Creek corridor.

The claim that houses within the Johnstons Creek corridor could be bulldozed is nothing more than a deliberate attempt to frighten local residents. There is absolutely no basis to this claim.

**I give a clear commitment that the NSW Government will not be building a freeway or major road through the streets of Enmore and Stanmore.**

If you wish to discuss this matter further, please do not hesitate to contact my office on 9558 9000.

Yours sincerely,

A handwritten signature in cursive script that reads "Carmel Tebbutt".
